## DAMAGE ACTION SETTLED TODAY FOR \$4,067.93

A settlement of \$4,067.93 in the action in trespass brought by Marlin W. Chronister, near Hampton, against Eugene C. and Irene E. Lemmon, East Berlin R. 1, was permitted by the Adams county court following a hearing this morning.

Of that amount approximately \$1,216 went for medical and hospital expenses. The sum of \$2,500 was given for pain and suffering and \$351.93 for loss of wages by Chronister during his period of hospitalization. Appearing as witnesses in the hearing today were Dr. R. Y. Dalrymple, of Hanover and Chronister.

Chronister, 19-year-old son of Mr. and Mrs. Harry L. Chronister, Reading township, was injured June 1, 1947, near Five Points. Attorney Daniel E. Teeter said that Chronister was riding a motorbike and was passing a truck owned by the Lemmons when Lemmon attempted a left turn without signal. Chronister said on the stand today that he has no recollection of the accident. Removed to the hospital with a broken leg on June 1, he was discharged on September 8, 1947. When the leg broke again he was returned to the hospital on November 28, and discharged finally on February 17, 1948.

**Argument Heard**  
The First National bank of Gettysburg was chosen as guardian for the youth, who is employed in the milling business. As a result of the injury he demonstrated to the court, he is unable to have full use of his right leg.

Argument was held in court on the action of Wofford C., Archie C. and Neelson A. Sober, Lemoyne, and R. W. Sawyer, Sr., Enola, who are seeking a new trial in two cases brought by them against Lester L. Wise, and a motion for judgment n.o.v. in four cases brought by Wise and others against them.

Attorney Richard A. Brown argued for Lester L. Wise, Norman L. Thumma, Bruce E. Wise, Ruthetta Wise, Clyde Eichelberger and Shirley D. Wise, all of the Wellsville area, that the jury knew what it was doing when it found for the Wises against the Sobers in a series of six cases during the November term of court. Attorney Eugene V. Bulleit, appearing for the Sobers, argued that the jury in giving the Wises the victory in the case had done so against the evidence presented. The court accepted briefs from the attorneys, heard the arguments and will hand down an opinion at a later date.

A number of desertion and non-support hearings were held. Lawrence H. Hinkle, York Springs R. 2, reported to the court that he has paid up his arrearages in full. William Cullison, Gettysburg R. D., who is \$177 in arrears on a \$3-a-week support order and still owes the county a \$100 fine and \$9 costs, was given until January 21 to get the amounts paid.

Frederick Cook, Gettysburg R. 2, who is over \$600 in arrears on a support order was told to come back on January 21 with witnesses to prove he has been unable to work and earn enough to keep up his payments. The support order of \$18 a week issued against Charles L. Markle, Abbottstown, in 1943, was reduced to \$6 per week following a hearing in which it was shown that his wife is now divorced from him and two of three children are self-supporting.

Harold Miller, Fayetteville R. 1, appeared before the court to report that he has made up an arrearage in a support order.

The law firm of Bulleit and Bulleit was granted permission to withdraw as counsel for Michael and Lavina MacCarthy, who are defendants in a mechanics' lien action.

## New Democratic Congress Convenes; Rules Issue Is Up

By JACK BELL  
Washington, Jan. 3 (AP)—The new Democratic-controlled Congress convened today and headed quickly toward a test of President Truman's influence on Capitol Hill.

The issue shaped up from a proposal by Democratic leaders to change House rules and ease the way for controversial labor and social measures—such as Mr. Truman campaigned for—to come to the House floor.

Republicans decided in a pre-session conference to fight the rule change. They hoped to win enough support from southern Democrats to beat it in a House with 262 Democratic members and 171 Republicans.

The result could be the tip-off on what chance there is for a coalition of Republicans and southern Democrats to beat some administration measures in the House.

On the Senate side, pre-session maneuvering gave that chamber's "old guard" Republicans a crushing victory over a group of self-styled GOP "liberals" Senators.

The "liberals" were out to force a change in the party's leadership. They wanted Senator Lodge (Mass.) to take over from Senator Taft (Ohio) as chairman of the GOP Senate Policy committee.

To keep Taft in, the "Old Guard" had to put through a party rule change, knocking out one that said no man could hold the post more than four years. Taft has held the

## PLAN 14 SITES FOR U.S. WAR DEAD ABROAD

Washington, Jan. 3 (AP)—American war dead from 400 overseas cemeteries will be brought together in 14 permanent military cemeteries in Europe, Africa, and the Philippines. The army announced today the selection of the 14 as the final resting place for these men, whose families preferred that they be left in the area of their sacrifice, rather than be brought back to America.

It is estimated that of the 257,890 identified casualties overseas more than 100,000 will be finally interred in these cemeteries which are markers along the lines of fighting in Europe, Africa and the Pacific area. Relatives were given their choice of having their dead returned home, or left overseas in military cemeteries or private cemeteries. About 94 per cent asked that the remains be brought back. All told about 150,000 will be returned. So far 114,000 have been.

## BRITISH PIERCE SOUND BARRIER

London, Jan. 3 (AP)—British scientists, after a year of failure, have developed a robot plane faster than the speed of sound—740 miles an hour at low altitudes.

The robot, a £20,000 (\$80,000) flying laboratory 11 feet long and weighing 900 pounds, has reached a speed "far above that of sound" in a straight level flight at the Royal Aircraft establishment at Farnborough, it was learned authoritatively. Tests are continuing.

Throughout its flight it radioed back to the scientists exact details of what happens to a winged machine when it passes through the sound barrier.

United States Army Air Force fliers have flown planes through the sound barrier several times.

The British scientists say, however, that the information they have received from the robot plane's flights may prove of more value in the development of super-speed jet planes than that from man-flown flights.

Police said a car driven by William Bixler Downes, 22, of 121 Ruth street, Hanover, struck Mrs. Espendia C. Auchey, 48, of Hanover R. 1, as the latter was crossing the street to her husband's car. Auchey, 58, was waiting for his wife on the opposite side of the street.

Mrs. Auchey was taken to the Hanover hospital where she was treated for brush burns on the arms, face and back. Damage to Downes' car was estimated at \$100, and to Auchey's car at \$25.

# FLORIDA FRUIT HIT BY FROST; SNOW IN WEST

(By The Associated Press)

Truck growers in the Florida Everglades surveyed frost-wrought damage to their crops today as a whistling blizzard harassed livestock producers over most of the high Great Plains region.

With reports still incomplete on the extent of the frost and freezing temperatures in Florida Saturday night, it is known to have been heavy in many sections.

Warren O. Johnson, chief of the Federal-State Frost Warning service, said some crops of corn, sweet potatoes, squash and new beans were killed and that lettuce, cabbage and other crops were damaged, some extensively. Temperature had climbed back into the 50s throughout the south and southeast today. The blizzard which came out of the Rocky Mountains into western Kansas, western Nebraska and western Oklahoma last night is of the solid variety which might carry with it diminishing effect into the citrus fruit belt of the Rio Grande valley and Texas Gulf coast, said W. M. Percy, federal forecaster at Chicago.

Percy said the heavy snow in the Plains would be whipped into drifts by strong winds throughout most of today and that visibility was at or near zero. Most of the area already had received from one to four inches of new snow. Snow was falling as far south as New Mexico and El Paso, Tex.

In eastern Colorado and Wyoming, where the snowfall was the heaviest of the winter, deep drifts slowed train and motor travel. Some plane flights out of Denver were cancelled. Approximately 200 motorists were stranded at Nunn, Colo., where many of them were housed in a public hall.

All roads in southeastern Wyoming were barred to all traffic except highway patrol cars which were dispatched to rescue stalled motorists. Subnormal temperatures also stung the Pacific coast area, except extreme southern California. At Bakersfield, Calif., the mercury had skidded to 33 degrees at midnight. Some highways between Los Angeles and San Francisco were snow-blocked.

# 14 KILLED IN PLANE CRASH

Seattle, Jan. 3 (AP)—A transport plane loaded with Yale university students crashed and exploded seconds after its takeoff last night, killing at least 14 of the 30 persons aboard.

Fifteen survived the crash. One person was not accounted for early today.

Twenty-seven Yale students from Washington and Oregon had chartered the DC-3 from Seattle Air Charter, a non-scheduled operator, to take them back to New Haven, Conn., after the holidays. The other three aboard were crew members.

The plane roared down an icy runway just at 10 p. m. Ten feet off the ground it faltered, struck the ground and crashed into the end of a Boeing Airplane company experimental hangar. Hours after the wreck rescuers still were removing burned bodies and trying to identify victims.

Thirteen were taken to hospitals soon after the crash, several badly burned. Some left the scene unaided, adding to difficulty of determining the number killed.

Although a full night shift was working inside the hangar, none there was injured. Workmen inside the hangar were first to reach the wreckage. They braved fierce flames in bringing out survivors.

# Things Of The Soil

NOTES ON THE JANUARY CALENDAR

Start keeping poultry cost and production records this year, simple notations of feeding costs, other major expenses, and production. Under the latter item list eggs and meat sold as well as food which the flock contributes toward family living.

And while on the subject of poultry, why not make use of equipment and start a small flock of chicks early this month? Bought from commercial hatcheries now, these birds will produce broilers for Easter trade and pullets to come into production about the time next summer when old hens begin to molt.

Among the more important tasks of early January is the ordering of seed and nursery catalogues. Concerns which grow and sell seed and plants are anxious to have the public write them for free catalogues. Do this early. There is a constructive education for every gardener, orchardist and farmer in these brightly colored classics of the soil.

Fertilizers will not be plentiful this year. The wise gardener and farmer will place his order with his local dealer this month and thereby aid everyone connected with the fertilizer business, and certainly will enhance his own 1949 business.

March is but a few speeding weeks ahead. The first few days of March is the proper time to plant asparagus and rhubarb roots, set out grape vines and all deciduous fruit trees, plant shade trees and ornamental shrubs, and start plantations of raspberries, blackberries, dewberries, Boysenberries, blueberries, currants and gooseberries. All this stock should be ordered in January.

Grape vines may be pruned any time late this month when the canes are not frozen. Two facts merit emphasis in this task—First, vines must be pruned each year; second, the work should be done before sap rises.

Likewise orchard pruning may be started during mild periods this month.

Inspect all woody vines, shrubs, shade trees, bramble fruits, fruit trees and other plants subject to scale pests. If scales are found, combat them with a January application of miscible oil, lime-sulphur concentrate, or home-made kerosene emulsion. Dormant spraying may be done effectively any time over winter when the temperature is above freezing.

Power spraying equipment will not be plentiful this year unless curbs are placed on exports. Therefore, farmers and gardeners should get together at once and plan to purchase cooperatively an outfit which would be too expensive for any individual to buy and maintain. By such cooperation small orchardists and owners of but a few valuable shade trees and shrubs may obtain all the benefits larger commercial orchardists enjoy from their up-to-date spraying equipment.

Hotbeds and coldframes should be ready before the end of the month for starting extra early cabbage, celery and broccoli, also petunias for window and porch boxes.

Place order for genuine northern-grown, certified seed potatoes. Remember that early orders for all vegetable seed are filled with the better quality seed. Too, last-minute delays are avoided.

Inspect house plants frequently for mealybugs, aphids and white flies. Early combat of these enemies saves many fine plants.

dent of York county, lived in East Berlin for the past two years. She is survived by eight brothers and sisters, O. Marcellus Livingston, Dover R. D. 2; Otis C. Livingston, Abbotstown R. D. 1; Beulah Livingston, East Berlin; Edward Livingston, East Berlin R. D.; Annie Eisenhart, Mrs. Lottie Harbold and Mervin Livingston, all of York; Mrs. Harry Ross, York R. D., and a number of nephews and nieces.

Funeral services Wednesday at 1 p. m. with brief rites at the Emig Funeral home, East Berlin, and concluding obsequies in Christ Lutheran church, Jackson township. Interment in the cemetery adjoining the church. Rev. Richard S. Shanebrook, pastor, will officiate.

**Dr. C. G. Haines**  
W. E. Haines, Abbotstown, has received word of the death of his brother, Dr. C. Grove Haines, on December 27 at his home in Hollywood, Calif.

Dr. Haines was associated with the University of Southern California for many years.

The average person who dies of rheumatic carditis is 30 years old. The disease takes about 40,000 lives a year.

Bundling her daughter, Helen Marie, 4, in a blanket, Mrs. Ward ran from room to room to warn other occupants of the danger.

# POLICE RESCUE FISH

Vevey, Switzerland, (AP)—Whether they like it or not Swiss police in this area are going fishing. A dry fall left the streams in this region so low that the bigger trout are finding it difficult to stay in water deep enough to support them. The police have been ordered to catch them alive and set them free in the Lake of Geneva where there is plenty of deep water.

# CANES FOR EMBROID SOLDIERS

London (AP)—"Spare the rod, spoil the soldier," the British army believes—and parents of cadets agree. The war office says that it asks permission of parents of all boys in military schools to cane their children "if the occasion should arise." Seventy-five per cent of the parents approve of the canings. "The old fashioned punishment of caning is better than such punishments as keeping the boys in to do extra work," a war office spokesman explained.

Despite their great bulk, elephants can pad through the brush as silently as a cat.

# RED ATTACKS ON RELIGION NOTHING NEW

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

The new Communist onslaught against religion in eastern Europe is a further effort to kill the spirit of independence which always has characterized the peoples of that part of the continent.

This is by no means the first evidence we have had that Moscow isn't finding it easy to subjugate these liberty-loving countries. Unrest has shown itself in virtually all of them—Yugoslavia, Czechoslovakia, Poland, Hungary, Finland, Romania. Even the three little Baltic states which Moscow annexed are reported to be miserable in their servitude.

# Protestants Warned

Russia's latest assault on religion has been directed against Czechoslovakia and Hungary. In the former, leaders of the Protestant churches have been warned "to put their ranks in order with the state." They are accused of having "ties with the Anglo-Saxon world which is against us."

At the same time there has been a fresh blast of abuse against the Roman Catholic church of Czechoslovakia. The Prague paper has charged that "cardinals and archbishops became the spokesmen of Fascism in central Europe."

All this coincides with the action of the Hungarian government in imprisoning Cardinal Mindszenty and ten top persons of the Roman Catholic church of Hungary. The Ministry of the Interior claims the Cardinal, who is primate of the country, has "confessed his guilt" to treason charges.

American Undersecretary of State Lovett has characterized the action against Cardinal Mindszenty as a sickening sham. He said it is the kind of behavior typical of Communist countries, and is the climax of a long series of actions against personal, human and now religious freedom. President Truman concurred in Lovett's statement.

Why should the Communists be so violent against religion? It is essential that we understand this because one of the cardinal tenets of the Redism is that religion is the dope of the masses and must be killed. The Communist parties of all countries persistently drive to achieve that aim.

The real point is, of course, that nobody can be a Communist and at the same time hold religious beliefs.

# Weddings

Holman, of New Bloomfield, became the bride of Major Harold Kenneth Reynolds, U. S. Army, son of Mr. and Mrs. Walter Lewis Reynolds, of Dallian, Okla., the double ring ceremony being performed by Chaplain Steck, major in the U. S. Army, Carlisle, and the bride's pastor, Rev. Glenn H. Wampole.

The bride, who is a graduate of Gettysburg college, was a member of the Delta Gamma Sorority. Major Reynolds attended Southeastern State Teachers' college, Oklahoma, and Northwestern university.

# Former Official Of Allegheny Co. Dies

Pittsburgh, Jan. 3 (AP)—John M. Huston, former Allegheny county register of wills, was found dead of a heart attack today in his east end home. He was 71. Dr. W. A. Clark said Huston died in his sleep. Dr. Clark said the former Democratic official became ill yesterday. The physician said he visited him then and made plans for an electro cardiograph to be made this morning.

Huston, storm center of perhaps Pennsylvania's most famous fee case, last month was ordered by the State Supreme court to pay the state about \$150,000. The money represented fees collected by Huston while serving as register of wills in 1937.

## Carlisle Meets Maroons Here Tuesday As South Penn Loop Starts 1949 Cage Campaign

Carlisle high school will be the opponent of the Gettysburg high school when the teams inaugurate their South Penn conference race here Tuesday evening.

The jayvee teams will clash at 6:45 o'clock, the preliminary time having been advanced at a recent meeting of the South Penn officials.

All eight members of the league will open their campaigns Tuesday evening. In addition to the Gettysburg-Carlisle tilt other games carded for Tuesday are: Hershey at Chambersburg, Waynesboro at Mechanicsburg, and Shippensburg at Hanover.

Chambersburg, seeking its sixth straight league title, is regarded by all as the team to beat for the honors. Coach Lowell Schlichter has another powerful Trojan outfit which appears as the outstanding favorite on the basis of pre-league game performances.

All other seven schools of the circuit have teams which appear to be about evenly matched and of the "dark horse" variety.

**Locals Boost Stock**  
Until the last two weeks, the Gettysburg high dribblers were unimpressive but in recent games the Maroons have been vastly improved. Their ball-handling has been better and with that their shooting should sharpen.

Despite the loss of their scoring ace of last year, Kenny Fair, the Forney-men are expected to give a good account of themselves in the coming campaign.

Carlisle has one letterman, Glenn Biggs, who has been sparking his team this season. Coach Millen's lads upset John Harris several weeks ago but lost games to Carson Long, William Penn and the alumni. Rounding out the starters for the Green and White will be Cary Ahl, tail center, Piper, guard, and Bogar and Shearer, forwards.

Cal Welliver's veteran Waynesboro team, unbeaten in five starts, ranks high in the role of contenders while Shippensburg, with eight veterans including Lee Lynch, high scorer of the loop a year ago, seems destined to rise from its usual doormat spot in the conference.

**Hanover Green**  
Bernie Thrush, former Biglerville high mentor, has an entire new outfit to work with at Hanover, the entire Nighthawk varsity of a year ago having graduated.

Mechanicsburg has shown enough form to indicate it will furnish stiff competition for most teams, particularly on the Wildcats' home court.

Another team, always tough at home, is Hershey, where Coach Sterling Banta has an unpredictable outfit paced by Maurice Reichengaugh.

## Sport Shorts

**Philadelphia, Jan. 3 (AP)**—Talk about sale of the Philadelphia Eagles apparently not only is premature but perhaps just idle rumor. That's the word from Charley Ewart, general manager of the National football league champions.

Ewart, commenting on a report by Braven Dyer, Los Angeles columnist, that the club has been sold to a Philadelphia syndicate, said yesterday the Eagles have not been sold and they may not change ownership at all.

**Palm Springs, Calif., Jan. 3 (AP)**—Many outside the University of California delegation expressed displeasure over the officiating of the Rose bowl game as Pacific coast conference officials began their three day winter meeting here today.

Unofficial discussion centered on Northwestern's 20-14 victory over California and its many post-battle repercussions. No one would comment by name for publication.

One conference bigwig, close to the officiating set-up, said he thought the whistle tooters were "nervous" but no one would go so far as to criticize them openly for mis-called penalty yards, as happened at least twice—once for Northwestern, once for the Bears.

Married were Raymond Miller, 23, attached to the USS St. Paul, and Alma Brown, 21, Long Beach.

## Sports Roundup

By HUGH FULLERTON, JR.

**New York, Jan. 3 (AP)**—There are strong indications hereabouts that efforts are being renewed to organize the "poison ivy" league formally.

... that "poison ivy" tag was handed a group of a dozen or so eastern colleges which didn't quite fit into the ivy league back when that "ivy" designation still was informal. ... They've tried to get together several times—the last about five or six years ago. ... And this effort may fall for the same reason that doomed previous ones. Schools like Colgate, Syracuse and Penn State, which should be the standard bearers, aren't showing much interest. ... Right now Temple and Rutgers apparently are leading the way; Pitt, a former leader, seems more interested in its big ten ties and West Virginia is being by-passed. ... Maybe the Mountaineers should make a pass at the southern conference if they want league competition.

**QUOTE, UNQUOTE**  
Jack Onslow, Chicago White Sox manager: "I'm going with Fred Hancock as my shortstop next season because it could be his making to have Freddie playing ahead of Luke Appling. Not many rookies ever have had a chance to say they had an Appling as their relief."

**MONDAY MATINEE**  
Word from the south is that Tulane's Monk Simons has dropped a few hints that he'd like to get back into more active coaching. ... Joe Beggs, veteran relief pitcher who never had a losing season in Major league ball, is interested in an eastern college baseball coaching job. You can blame the American Bowling congress, in part, for the suspension of eastern hockey league activities this season. The circuit found it couldn't operate without Atlantic City and Atlantic City couldn't operate with the ABC taking over the auditorium for some four months.

**15 JAPS GET PRISON TERMS**  
Tokyo, Jan. 3 (AP)—Fifteen Japanese, including the war time military police chief and several former generals, drew heavy prison sentences today for killing 45 captured American fliers.

Twelve others were acquitted by a U. S. Eighth Army commission. The trial lasted five months.

Among those who drew the heaviest sentences—life in prison—were: Lt. Gen. Sanji Okida, commander of the military police headquarters; Lt. Gen. Michio Kunitake, chief of staff of the 15th District Army; Maj. Gen. Tsugio Nagatomo, commander of the Central District military police; Lt. Col. Hideo Fujioka, chief of police affairs for the Central Army district, and Maj. Shuichi Ikoma, chief of the foreign affairs division of the Central District.

Lt. Gen. Eitaro Uchiyama got 40 years and Lt. Gen. Otagoro Ishida was sentenced to one year in prison. The others drew terms ranging down to one year.

**Damage To Big Ship Delays New Sailing**  
Southampton, Eng., Jan. 3 (AP)—The sailing of the Queen Mary for New York, scheduled for today, has been delayed until tomorrow because of damage done to the giant liner when she ran aground off Cherbourg Saturday.

The Cunard White Star line announced repairs to the damaged hull were being made from inside the vessel although that part of the ship is under water.

Although the repairs are of a "minor nature," the officials said they couldn't be completed in time for the vessel's scheduled departure with today's noon tide.

## BOWL RESULTS ADD CONFUSION TO GRID YEAR

**New York, Jan. 3 (AP)**—One of the wackiest of all college football seasons went to the moth balls today, doggedly following the upset theme right down to the end.

A multitude of New Year's Day bowl games only brought further and more complete confusion to a year that saw mighty Army and Notre Dame tied by supposedly inferior teams in the final weeks of the campaign.

So what did the bowl games prove? Well, for one thing, they proved that the No. 7 team in the country could whip the No. 4 combine. Northwestern did it by humbling California in the Rose Bowl, 20-14.

They proved the fifth best team in the nation, in the eyes of the experts, could lick No. 3, Oklahoma, did it in the Sugar Bowl at New Orleans, conquering North Carolina, the highest ranked bowl performer, 14-6.

They proved tenth-ranked Southern Methodist university was superior, for one afternoon at least, to ninth-ranked Oregon, which bowed in the Cotton Bowl at Dallas, 21-13.

**"Third Rater" Wins**  
They proved that the most smashing and unbelievable triumph of the day could be achieved by a team that had been labeled a "third rater" on its season's record.

Texas rose out of the travail of three defeats and a tie to smash highly-regarded Georgia, the Southeastern conference champion and No. 8 in the national rankings, in the Orange Bowl at Miami, 41 to 28. Texas wasn't even in the first 20 in the final AP poll.

Clemson, the team that hadn't lost a game all year or even allowed itself to be tied, wasn't given much chance against the Missouri eleven that lost twice during the season.

But the South Carolinians finally convinced the boys their season's record was no fluke by measuring the Missourians in the Gator Bowl at Jacksonville, 24-23.

Nevada, which soared to a new offensive peak and led the nation in total offense behind the slingshot throwing arm of Stan Heath, was throttled by a Villanova team that had lost two games and tied one. Villanova won the Harbor Bowl game at San Diego, 27-7, holding Heath to negligible yardage.

**Other Results**  
Besides the Texas and Southern Methodist victories, Baylor whipped Wake Forest, 20-7, in the Dixie Bowl at Birmingham to give the boys from the cowboy country a clean sweep.

Other bowl results: Delta—William and Mary, 20, Oklahoma A. and M., 0; Salad—Drake, 14, Arizona, 13; Sun—West Virginia, 21, Texas Mines, 12; Raisin—Occidental, 21; Colorado A. and M., 20; Prairie—Wilberforce (Ohio), 6, Prairie View, 0; Vulcan—Kentucky State, 23, Greensboro (N. C.), A. and T., 13; Cigar—Missouri Valley, 13, St. Thomas (Minn.), 13; Tangerine—Sul Ross, 21, Murray State (Ky.), 21; Pineapple—Oregon State, 47, Hawaii, 27; Oriental Rice—U. S. Army Ground Forces, 13, U. S. Air Force, 7; Ice—Alaska, 0, Ladd Field, 0; Lily—U. S. Navy All-Stars, 25, Kindley Flyers, 6.

**29,547 Legal Deer Killed In Penna.**  
Harrisburg, Jan. 3 (AP) — Deer hunters killed 29,547 legal bucks during the 13-day 1948 season, the state Game Commission said in a preliminary report today.

Another 1,996 bucks and 2,530 does were killed illegally, making a grand total of 34,073 killed by gunfire during the season, the commission said.

It added, however, that the report was made up only of figures from area game wardens, and would not be official until individual tabulations from hunters are completed.

The report also showed that another 3,697 deer were killed by cars along state highways during the past year. Commenting on the 1948 kill, Thomas Frye, executive director of the commission, said "it was better than anticipated."

The bag during 1947 consisted of 31,475 bucks and 63,568 does. There was no doe season in 1948.

**Kashmir Fighting Ended In India**  
New Delhi, India, Jan. 3 (AP)—The Indian defense ministry has reported the end of fighting between Indian and Pakistani forces in the princely state of Kashmir.

Fourteen months of fighting came to an end at midnight Saturday, when a cease-fire agreement between the sister dominions became effective.

India and Pakistan agreed to settle the issue of which state will absorb Kashmir through a plebiscite under United Nations supervision. Kashmir's population is largely Moslem but the ruling Maharajah is a Hindu. The state adjoins the northern borders of both dominions.

**Prague (AP)** — Prague has 2,000 street cleaners and it costs the city \$3,000,000 to keep the capital clean each year, it was disclosed when the city celebrated a special "week of cleanliness." Prague calls itself "The Golden City" but it has adopted a new slogan: "The most beautiful and cleanest city."

## Mechanicsburg Quint May Cause Trouble In League

**Mechanicsburg, Jan. 3** — Although John Frederick's Mechanicsburg high varsity courtmen will have only played two games before they meet Waynesboro here on January 4, the result of their fine play against a seasoned and star-studded team like Steelton with sure-shotted Gibby Reich, may provide their opponents in the Southern Penn conference games some uncertain moments.

In their second game against the MHS Alumni five, they lost by a score of 37 to 36, and never for one moment were they out of the play. At the end of the second period in this game, the high school quintet led their older brothers by eight points, and a perfect score of six out of six in foul shots.

This year's varsity five went out on the court in their first game with very little known about them, but when their game was over with Steelton, Coach Frederick realized he had a smooth team, perhaps a little green on getting shots off the rebound, but fast and hard to keep track of, especially when the ball was in the scoring zone.

**Starters Chosen**  
The team makeup this year has Fred Diehl, Vic Enel, Don Cornman, George Cuthbert and Fred Badorf in the initial lineup, with the surprising Sonny Jacobs for the rally maker. Both Diehl and Jacobs are dangerous near their basket, as they showed remarkable sureness in finding the net in the Steelton contest. Undoubtedly Sonny Jacobs has earned himself a sure berth on the varsity team, for he is tricky on offense, and can move fast with the ball.

Whatever weakness this year's team has will certainly be overcome when they meet Waynesboro, as their second game showed that most of their inexperience lay in their inability to cover the basket when the ball was taking a rebound after a shot. Another factor which will be overcome, Coach Frederick says, is the lack of a twist shooter, but he thinks he has a player who can be developed into a mighty fine one-arm shooter. He is not saying who that player is at the moment.

**Forecast Stiff Battles**  
From this end of the conference, the charges of Johnny Frederick will give other conference teams a close close battles, and since Steel-

ton walloped Chambersburg, the last year's South Penn champions, Mechanicsburg's showing against the Bollermakers will make this game on January 21 here a not-so-certain win for the champs.

Waynesboro's five-game winning streak may be broken when they meet the Wildcats, for the boys this year are out to win every conference game. On the strength of their first two games, they may do it.

## New President At Johns Hopkins

Baltimore, Jan. 3 (AP)—Three days after the old year, an era quietly ended for one of America's great institutions of higher learning, Johns Hopkins University.

Its president, Dr. Isaiah Bowman—who helped set the boundaries of Europe after the first world war—retired today after a 13-year tenure.

Immediately, Dr. Dewey Bronk, University of Pennsylvania biophysicist and director of the National Research Council, took over as the sixth Hopkins president. No special ceremony signaled the change. Hopkins tradition, which Dr. Bowman helped shape, generally frowns on academic pomp.

Dr. Bowman — internationally known geographer, author and "incorrigible teacher," as a colleague called him—stepped into private life, but his friends had assurance that "I'll be buzzing around as usual."

As many as 15,000 tiny young oysters or spat can cement themselves onto half a bushel of shells planted underwater in oyster cultivation.

The oyster feeds itself by drawing in water and filtering out microscopic plants and animals.

## 21 ACCIDENTAL PA. DEATHS IN 1ST '49 WEEKEND

(By The Associated Press) The first week-end of the new year brought violent death of 21 persons in Pennsylvania.

Fifteen of the victims died as a result of highway crashes. Norris-town and York couples died in accidents involving open gas jets, while a Doylestown woman fell to her death from a fire escape and an Allegheny county man was burned to death.

Ella Lesner, 76, of R. D. Cabot, county, died in Allegheny Valley hospital, Tarentum, Sunday night shortly after being struck by a car. Frank Waldo, 48, of Fairview, Pa., died Sunday in St. Vincent's hospital, Erie, of injuries sustained in a truck-car crash near Erie Friday.

## Killed In Fall

A Norristown couple and a York couple were killed in almost identical accidents involving open gas jets. In Norristown, Jerome Beyer, 75, and his wife, Elizabeth, 70, turned on the gas flame in their kitchen stove to heat water for the weekly washing of clothes. But, said Coroner W. J. Rushong, the gas burned the oxygen from the air in the tightly closed room.

In York, Arthur P. Weaver, 45, and his wife, Iona, 31, were asphyxiated when they turned on their oven to heat the apartment. When their bodies were found, the gas jet was open.

Mrs. Catherine Duckworth, 82, of Doylestown, plunged from a third floor escape while shaking out a rug. The coroner reported that she suffered a heart attack and fell. A 50-year-old Hamar township man, Frank Keiber, burned to death in a fire that destroyed his three-room home in Allegheny county. The fire started in an overheated stove.

## Auto Accident Victims

In auto accidents: A car struck and killed 73-year-old Edward Moon of Williamsport. Harry S. Good, 72, of Reamstown, was struck by a car as he walked along a highway near his Lancaster county home. Richard King, 65, of Philadelphia, was run down by a hit-run car. Also killed by a driver who failed to stop in Philadelphia was 70-year-old Harry Rosenbaum.

Albert Renion, 58, of Philadelphia, was killed in a crash of two cars near Media. Thomas E. Wright, 31, Kennersell, was run down by a car near Franklin while he was attempting to put chains on his car along a highway. Raymond Guild, 70, of Grand Valley, was killed when he was struck by a car while he walked along a highway near Titusville.

Mrs. Anna Morris, 50, Pittsburgh, was struck and killed by a car on a Pittsburgh street. Seaman First Class John Franklin Lucas, 26, a Curwensville sailor home on Christmas leave, was killed as the car in which he was riding skidded on an icy stretch near Clearfield.

## Sledder Is Killed

Sixty-year-old Lloyd Lutzer of Leontes Mill, near Clearfield, was found dead with his leg pinned beneath the wheel of his truck. Police

figured he fell from the vehicle and struck his head as the truck backed over him.

William C. Starnes, 52, of Kane, was killed by a hit-run driver in front of the Kane high school. His body was dragged 35 feet.

Jacob F. Baumgardner, 51-year-old Derry man, died nine hours after he was involved in an automobile accident. Death occurred at the man's home and the coroner reported he died of his injuries and shock. Shirley Flood, 12, of Osceola Mills, was killed when her sled was struck by an automobile near her home.

## Garden Activities For Early January

Special attention should be given to house plants in small pots. They dry out more quickly than those in large containers.

Keep house plants away from radiators and other heating devices. Make sure your house plants do not touch the windowpanes at night, as they may freeze. Protect the plants at night by placing newspapers between the glass and the plants.

While winter-flowering house plants are in bloom they should occupy the sunniest window, with the exception of Saintpaulias and Cinerarias, which do best if screened against full sunlight by a lace curtain.

Never use oil to give a glossy appearance to the leaves of any plant. The oil clogs the breathing pores and collects an extra quantity of dust.

Keep palms on the dry side—this is their resting period.

Instead of burning the Christmas tree, use the branches as a mulch over roses, the perennial border and bulbs.

Start a bowl or two of paper-white narcissus at intervals of about ten to fifteen days for continuous winter indoor bloom.

Acute rheumatic fever takes its greatest toll among children of primary school age.

## ELEVEN ESCAPE XMAS TREE FIRE

Philadelphia, Jan. 3 (AP)—Seven persons were injured yesterday in a Christmas tree blaze that trapped 11 persons on the second floor of their home here. All of the injured were treated at Philadelphia General hospital. None was hurt seriously.

Two persons were rescued by three men who formed a human pyramid while firemen took a small child from its mother's arms as she hung from a window 20 feet above the pavement. Two others leaped 15 feet to safety after flames cut off escape from the house.

The blaze was in the home of Pasquale Paolucci, 55, and was discovered by his 10-year-old daughter, Joanne. Edwin Gledhill, 30; William Fay, 23, and James Yeager, 30, all living next door to the Paolucci home, balanced themselves along a rear wall and rescued Joseph Paolucci, 12, and Thomas, 13.

Firemen rescued Joanne D'Ascenzio, 5, from the arms of her mother,

Mrs. Elizabeth D'Ascenzio, 22, the Paolucci's oldest daughter. Mrs. D'Ascenzio and her mother, Mrs. Assunta Paolucci, and a younger sister, Frances Paolucci, remained on the second floor until firemen extinguished the blaze shortly after their arrival.

Mary Paolucci, 16, and Anthony Paolucci, 26, jumped to safety. Mrs. D'Ascenzio's husband, Joseph D'Ascenzio, 27, lowered Rose Paolucci, 9, to the ground by a rope. There was no estimate of damage.

**For Those Who Like Peaches**  
According to the census of 1890, the three Pacific coast states—California, Oregon and Washington—produced only 5 percent of the total peach crop. Last year (1947) these three states produced slightly more than 44 percent of the nation's peach crop. The actual meaning of this trend is serious for the eastern consumer as well as the eastern farmer. In fact, the seriousness of a 60-year shifting of one crop so far across the nation deserves immediate consideration.

First among the evils of seen in this production movement is the fact that eastern consumers must pay heavy transportation charges on the Pacific Coast peaches he eats. Next, these peaches must be harvested green, shipped green and arrive at the eastern market green. Therefore, the consumer never enjoys a high quality peach, regardless of the size, perfection of appearance and other minor superlatives. Then too, the eastern grower or potential grower is denied the market revenue rightly belonging to him. And above all, due to freight and lower peach quality of the western peaches, consumption remains below warranted levels.

Peaches, like raspberries and other bramble fruits, strawberries, and other perishable crops, are best grown in the farming region closely adjacent to consumer markets. Even Georgia and Carolina peaches cannot be placed on northern markets safely with harvesting them before they are ripe.

The solution of this unfavorable production situation lies mainly in a return to self-sustenance fruit growing—every farm producing enough fruit to meet family needs, with a small marketable surplus in regions where urban demands justify. It appears logical that most of our peaches should be grown within no more than 100 to 300 miles of our great urban centers.

Farmers who plan to set out at least enough peach trees to safeguard the family's future requirements for the immediate table use, canning and drying, may prepare the soil before winter and transplant high quality nursery trees as early in March as soil and weather conditions permit. Or trees may be set out as late this month as possible.

A few trees for home production may be planted along fertile fence rows or in other well drained and deeply mellow loams. It is always a wise choice to locate commercial

peach orchards on slopes where cold air may drain away to reduce dangers of late spring freezes.

Cultivation is usually necessary for peach orchards. Therefore, tree rows should be made according to the contour so tillage will not result in gullying. Of course, sod mulch for peaches is practicable, but in most cases a green manure crop turned under every few years is a profitable investment in tree vigor and productivity. In fact, one of the leading causes of the decline of peach growing over the last fifty years on many hill farms of the East is found in the impoverished soils left from former orchards where contour planting was not practiced and surface erosion carried away much of the fertile soil. Such orchards, of course, were never replanted. Winter cover crops are necessary and advisable wherever peach soils slope enough to invite erosion.

More resistance has been bred into peach varieties to withstand winter rigors. Effective control of all insect pests and prevalent diseases has been developed. Now lacking on many farms is this one major accomplishment—more peach trees in or nearing production age.

The editor invites letters from readers with inquiries on this important question.
